

POOJA JOSHI

AI&ML Engineer

Final-year B.Tech (AI & ML) student with hands-on experience in Computer Vision, NLP, and Predictive Analytics. Proficient in Python, TensorFlow, PyTorch, Hugging Face, and data science libraries, with proven ability to deliver high-accuracy ML models for real-world applications. Seeking opportunities to contribute technical expertise and problem-solving skills to AI-driven products and research projects

EDUCATION

B.Tech - Artificial Intelligence and Machine Learning

MGM University , Chh. Sambhajinagar

2022 - 2026

7.5

HSC

Sant. Bhagwan baba Arts and Science College, Ahmednagar

2021 - 2022

81.83

SSC

Champavati Vidyalaya, Beed

2019 - 2020

95.00%

PERSONAL PROJECTS

AI-Powered Placement ERP System

- Built a full-stack ERP with Flask & MySQL, integrating AI-based resume parsing and NLP-driven skill-job matching for automated candidate shortlisting.
- Deployed on AWS (EC2, S3, RDS) to enable scalable cloud hosting, secure storage, and reliable database management.
- Improved recruitment efficiency by automating job posting, notifications, and candidate-company matching, supporting data-driven hiring decisions.

RAG-based PDF Chatbot

- Developed a Retrieval-Augmented Generation chatbot using LangChain, FAISS, and Hugging Face.
- Enabled semantic search and question answering over PDFs by integrating vector databases with LLMs.
- Deployed as a Python backend microservice, supporting scalable query handling.

WORK

Advanced Machine Learning & Artificial Intelligence with Python Intern

Yhills Edutech Pvt. Ltd

05/2024 - 07/2024

Achievements/Tasks

- Built and fine-tuned ML models using Python, TensorFlow, and PyTorch for various use cases.
- Gained hands-on exposure to model deployment, optimization, and dataset preprocessing.
- Collaborated on projects improving accuracy and efficiency of AI-driven solutions.

SKILLS

Python

DSA

SQL

DBMS

TensorFlow

PyTorch

scikit-learn

pandas

Hugging Face

NumPy

OpenCV

Computer Vision

NLP

GAN

Predictive Analysis

SEMINAR & WORKSHOPS

YOLO

Delivered a seminar on YOLO Object Detection, explaining architecture, principles, and real-time performance.

CERTIFICATES

Hands-on approach to AI for real-world Application – IIT Kharagpur

Machine Learning with Python – YHILLS

Google Data Analytics – Coursera

Deloitte Australia - Data Analytics Job Simulation – Forage.

Web Development - IEEE MGM University
